

9545 '00 MAR 31 P3:38

Dear Sir or Madam:

I am a third grader. My mommy read that partially hydrogenated vegetable oil is harmful for health. I want to know why most snacks I like have partially hydrogenated oil in it. Please write back to me and tell me why you let people who make processed food for children use it and if you are going to stop them from using it.

Thank you.

Sincerely,

Celeste Jarmow
